LANGUAGES

German – C1 Certified

English – Native

PROFILE

Versatile developer with practical experience using both **Unity** and **Unreal** Engines, **C++** and **C#** as well as visual scripting. Focused on **gameplay systems**, scripting, and physics-based mechanics. After over a decade of leadership in customer-facing roles, I relocated to Germany in 2019, achieving C1 German proficiency and retrained in game development. I'm looking for a junior programming role where I can continue learning, implement features across gameplay, **UI**, and systems, and grow alongside an experienced, creative team.

EXPERIENCE

GAME PROGRAMMER - VOCATIONAL TRAINING
Games Academy, Berlin (DE) 2023-2025
- Covered gameplay systems, programming patterns, physics, engine fundamentals, rendering and shaders, with hybrid remote and on-site instruction.

VOLUNTEERING
Games Ground, Berlin (DE) Nov 2024 & Nov 2025
- Assisting in the planning and organization of event workflows, coordinating participants and supporters, contributing to technical preparations, such as setting up and installing event equipment.

LANGUAGE SCHOOL – GERMAN
Euro Schulen, Damago & BBAG, Potsdam (DE) 2019-2022
- German Language, B1 & Integration test, B2, C1 Full time Language School

CASE MANAGER
Department of Work and Pensions (UK) / Nov 2018 – Mar 2019
- Navigated complex systems, legal compliance, and handled sensitive client interactions.

DATA & INFORMATION ASSISTANT
NHS Kent Community Health (UK) / Jun 2018 – Nov 2018
- Maintained structured records and communicated compassionately with healthcare professionals and parents.

GENERAL MANAGER
Five Guys (UK) / 2016 - 2018
- Led site opening and development, recruiting and training 32+ staff, managing daily operations, ensuring high food safety and customer service standards, and overseeing stock, reporting, and compliance.

VARIOUS MANAGEMENT AND CUSTOMER SERVICE ROLES
Various Companies (UK) / 2000 - 2016
- Held leadership and operational roles in hospitality and retail, including assistant and support management positions, developing strong team leadership, customer service, and operational skills.

UNIVERSITY (2003-2006)
University of Kent, Canterbury (UK)
- Undergraduate Certificate in Multimedia Technologies and Design

HIGH SCHOOL (1995-2003)
Reading School, Reading (UK)
- 3 A Levels
- 11 GCSEs

PROJECTS

LOST KEEPERS
A stylized **3D platform adventure** inspired by Zelda, focused on environmental puzzles and exploration. Currently in development in Unreal Engine 5.6, Solo Programmer.

PROPHECY OF ASH
- **Games Academy**

Semi-realistic **high fantasy RPG**. Unreal Engine – Gameplay Programming, Combat, Enemy Behavior, System Design, Optimization, Leading Team of 4 Programmers

KYOTO CONFLICT
- **Games Academy**

8v8 Asymmetric Online Capture-the-Flag Shooter.
Unreal Engine – Gameplay Programming, **Network Replication**, Match Logic, **Wwise** Audio Integration. One of three Programmers

STEAMBRAWL
- **Games Academy**

8-Player Online **Auto-chess Battler** in Steampunk Setting.
Unreal Engine – **UI Systems**, AI Fight Behavior, Animation Integration, VFX, Audio, Networking, Working in tandem with one other programmer

- **Games Academy**

Rail-Based Psychedelic Space **Shooter**. Unity – Player Controls, Object Pooling, Combat Scripting. Solo programmer

LOLA
A **3D platform adventure**. Unity, Character controller, Animation and Audio Integration. UI Systems. Solo programmer

PROJECT WORK

As part of the training in Game Programming at Games Academy Berlin, each semester was anchored by a studio-style project simulating real industry workflows. Students collaborate in interdisciplinary teams: Programmers; Designers; Artists and Producers. In order to conceive, develop, and present a playable game prototype over the course of approximately 8 weeks. These projects were developed in remote, interdisciplinary teams following agile workflows.

TECHNICAL SKILLS

LANGUAGES

C++	4 Years experience
C#	3 Years experience
PHP	1 Year experience
JavaScript	1 Year experience
SQL	1 Year experience

ENGINES & TOOLS
Unity, Unreal, Git, Trello, Taiga

SYSTEMS
Source control, versioning, agile task tracking, LLM-assisted programming for rapid prototyping and debugging.

SOFT SKILLS

STRONG COMMUNICATOR
