Game Engines

- Unreal Engine, Unity, Godot

Development

- Object-Oriented Programming (OOP)
- Gameplay Programming
- Debugging
- Git
- Agile Development (Trello, Taiga)

PROJECTS

Lost Keepers

A stylized **3D platform adventure** inspired by Zelda, focused on environmental puzzles and exploration. Currently in development in **Unreal Engine 5.6**, Solo Programmer.

Game Programmer

PROFILE

Gameplay Programmer with experience in Unreal Engine 5, C++ and Blueprint scripting, focused on gameplay systems, multiplayer mechanics and NPC behavior. Developed AI systems using hybrid state-based behavior trees and implemented networked gameplay features using Unreal replication. Career changer with over a decade of leadership experience, having relocated to Germany and achieved C1 German proficiency while retraining in game development.

EXPERIENCE

Game Programmer - (Vocational Training / Project-Based Development)

Games Academy, Berlin (DE) 10/2023-09/2025

- Developed gameplay features and game systems using C++ and Unreal Engine across multiple team projects.
- Implemented player mechanics, physics interactions, UI elements and core gameplay functionality.
- Debugged, tested and iterated on game features to improve functionality, stability and player experience.
- Collaborated with multidisciplinary teams using Git, Trello and agile development workflows.
- Applied object-oriented programming principles and clean, maintainable coding practices throughout development.
- Rendering and shader programming fundamentals.

Volunteer Games Ground

Games Ground, Berlin (DE) 11/2024 & 11/2025

- Supported planning and execution of game industry event operations
- Coordinated participants and contributed to technical setup and equipment installation.

Case Manager

Department for Work and Pension (UK), 11/2018-04/2019

- Managed a caseload of approximately 400 clients within a structured, rules-based environment.
- Investigated complex and non-standard cases requiring analytical thinking, interpretation of regulations and sound judgement together with legal teams.

FURTHER PROJECTS

Prophecy Of Ash

Semi-realistic high **fantasy RPG**.
Unreal Engine – **Gameplay Programming, Combat, Enemy Behavior**, System Design, Optimization, Leading Team of 4 Programmers

Kyoto Conflict

8v8 Asymmetric **Online Multiplayer Capture-the-Flag Shooter**.
Unreal Engine – **Gameplay Programming, Network Replication, Match Logic**, Wwise Audio Integration. One of 3 programmers

Steambrawl

8-Player **Online Auto-chess Battler** in Steampunk Setting.
Unreal Engine – **UI Systems, Unit AI Combat and Movement Behavior**, Animation Integration, Audio, Network replication, Working in tandem with one other programmer

CAREER HIGHLIGHTS

- **Developed 4 game projects** using C++ and Unreal Engine.
- **Led the launch of a new restaurant**, recruiting, training and coordinating 30+ employees.
- **Developed operational tools** adopted across multiple restaurant locations.
- **Managed ~400 complex public-sector cases**.

LANGUAGE

English- Native Speaker
German - Certified C1

06Administrative Officer

NHS [National Health Service] (UK), 06/2018–11/2018

- Coordinated schedules and appointments for a team of 24 Health Visitors across East Kent, ensuring statutory deadlines were consistently met.
- Managed and maintained accurate records within NHS systems, processing new referrals and tracking cases throughout their lifecycle.

General Manager

FiveGuys, Greenhithe, (UK), 04/2016-06/2018

- Led the successful launch of a new Five Guys restaurant, recruiting, training, and managing a team of 30+ employees.
- Managed day-to-day operations in a fast-paced, customer-focused environment, consistently delivering high performance against business KPIs.
- Improved operational efficiency by developing Excel-based tools for scheduling and stock management, later adopted across multiple locations.
- Built and motivated high-performing teams through coaching, collaboration, and performance-focused leadership.
- Introduced simple gamification techniques, including "Fastest Burger of the Day" challenges, to increase team engagement and motivation.

Earlier Career – Leadership & Operations (Hospitality) 2000–2016

- Progressed through a range of customer-facing and leadership roles across hospitality, retail, and customer service, culminating in multi-site and management positions (Pizza Hut, Marks & Spencer, British Telecom etc.)
- Developed strong foundations in customer service, staff training, stakeholder communication, process improvement, budgeting, forecasting, and operational reporting..

EDUCATION

GAME PROGRAMMER (Accredited Vocational Training)
Games Academy, Berlin (DE), 2023-2025

German Language Training (A1–C1)

Euroschule Potsdam | Damago Potsdam | BBAG Potsdam
2019–2022
Full-time intensive German language programme (CEFR A1–C1).

MULTIMEDIA TECHNOLOGIES AND DESIGN (Undergraduate Certificate)
University of Kent, Canterbury (UK), 2003-2006
